YAMATO Complete Cylinder Bed Overlock Machine
Allows Easier Sewing for Tubular Operation!
AZ8400 Class

Complete Cylinder Bed Overlock Machine

Small Cylinder to Perform Smooth Sewing
This unique and complete cylinder bed allows smooth and easy sewing even for tubular operation of small diameter such as attaching sleeves and hemming cuffs of the garments. And also it allows the material to run smoothly after sewing. The circumference of this cylinder bed is only 6 inches (151.5mm).

Quick Change of Stitch Length by Push-Button
To make changing of stitch length, it is only necessary to rotate handwheel while pressing Push-Button. Desired stitch length is obtainable quickly and easily.

Quick Change of Differential Feeding Ratio
Only by adjusting lever, desired differential ratio can be performed to match various material to be sewn. Adjusting lever is located on the back side of the machine and the position of the lever ensures to prevent the material from catching it.

Sewing Speed up to 8,000 s.p.m.
The machine has not only unique designed cylinder bed but also super high speed sewing capability for higher productivity. Its maximum sewing speed is 8,000 s.p.m. * (Depending on the material and sub-model)

Cloth Plate also available as option
The machine can be fitted with optional cloth plate for general sewing operation as desired.

Available Models:
- AZ8400: Single needle overlock machine equipped with swing-out hemming guide.
- AZ8400/TC/CH20: Single needle overlock machine equipped with seam sensing device for blind hemming and one touch thread tension controller.
- AZ8403: Single needle overlock machine for general tubular operation.
- AZ8420: 2 needle overlock machine for general tubular operation.
