Automatic Back-Tacker with "Straight Chain Casting" System

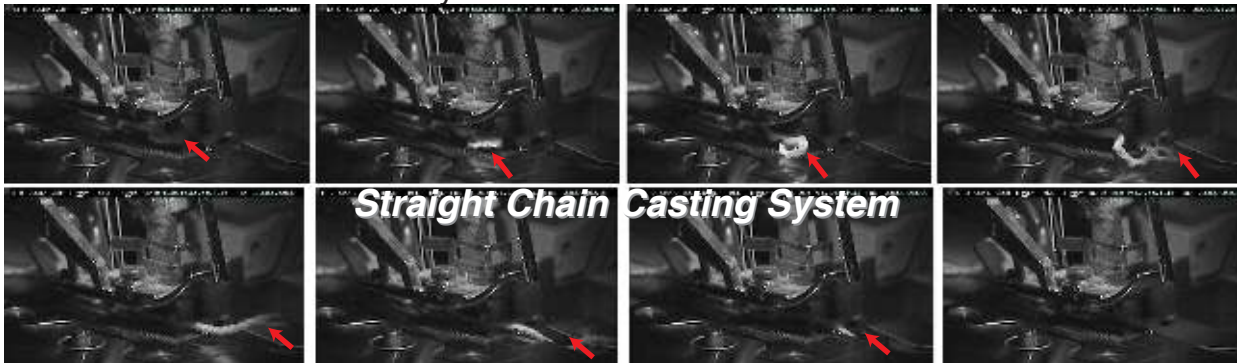

Clean-finish & Secure back-tack is made while you blink!

■ Stress-free-1

Yamato's "Straight Chain Casting" enabled real quick back-tack procedure for you to operate like usual overlock with chain cutter only.

■ Stress-free-2

Nothing to disturb operator's sight for stress-free loading and handling of the work.

■ More Security

As the thread chain is wrapped by the seam, without being interfered by needle threads, much less risk for failure is expected.

■ Complete package

ABT20 is packaged with "self-cleaning system" to minimize downtime in cleaning and prevent the work from being stained. Also compact servo motor is already included!

■ Machine Head is...

...introduced our "SD (=Speed & DRY)" technology for minimized risk for oil stain while maintaining super high speed and high durability
